### AI in Drug discovery

With AI there is real progress being made in determining, with a greater degree of accuracy, which molecule might be a hit, and which one won't.

- AI in drug design**
  - Predicting the 3D structure of target protein
  - Predicting drug-protein interactions
  - AI in de novo drug design (beginning drug design with the target of a unique disease pathway)
- AI in polypharmacology**
- AI in drug repurposing**
- AI in drug screening**
  - Prediction of physicochemical properties
  - Prediction of bioactivity
  - Prediction of toxicity
